Founding and Sponsors

The ***MIS Quarterly*** was begun in 1977 through the joint efforts of the Management Information Systems Research Center (MISRC) of the University of Minnesota and the Society for Information Management (SIM). The Association for Information Systems became a subscription sponsor in 1995.

Founded in 1968, the Society for Information Management (SIM) is an international organization for information executives. Its members include chief information officers, vice presidents of information services organizations, and key staff members from leading U.S. and international corporations and government agencies. Other members are educators, researchers, and systems executives at institutions of higher learning. Together, they are the leaders in the information services field, responsible for training tomorrow's professionals and developing management techniques for the strategic use of information and computing technology. The ***MIS Quarterly*** is included in some SIM membership categories; it is an option in other categories. Applications for SIM membership must be addressed to the Society for Information Management, 401 North Michigan Avenue, Chicago, IL 60611-4267. Address changes and claims for journal subscriptions obtained through **SIM membership** should be sent to the SIM address.

The Association for Information Systems (AIS) is the global professional society for information systems academics. It was founded in 1995 and has more than 2,000 members in 40 countries. It sponsors the International Conference on Information Systems (ICIS), the leading international conference for information systems research. To ensure that AIS is truly global, its leadership rotates through three world regions: the Americas, Europe-Mid-East-Africa, and Asia-Pacific. Members of AIS may subscribe to ***MIS Quarterly*** at a reduced rate as a benefit of membership. Membership applications and information concerning AIS may be obtained from: AIS, P.O.
