

# MANAGEMENT INFORMATION SYSTEMS QUARTERLY

## Table of Contents

March 1981

Volume 5, Number 1

EDITORIAL PREVIEW .....	ii
-------------------------	----

### INVITED ARTICLE

"Value Analysis: Justifying Decision Support Systems," Peter G. W. Keen, Massachusetts Institute of Technology .....	1
<i>Discusses the assessment of DSS proposals presented to management, and presents an approach to value analysis based upon usefulness.</i>	

### APPLICATION

"The Management of Information Resources — A Challenge for American Business," Franz Edelman, Edelman Associates, Inc. ....	17
<i>Develops a framework for a better understanding of what needs to be done and why for managing information resources.</i>	
"Online Computer Auditing Through Continuous and Intermittent Simulation," Harvey A. Koch, University of Rochester .....	29
<i>Introduces a computer auditing technique specifically designed for timesharing systems that can be used to audit internal controls.</i>	
"Observing Organizational Environments: A Systematic Approach for Information Analysts," Kenneth E. Kendall and Julie E. Kendall, University of Nebraska .....	43
<i>Presents a systematic methodology for use by the information analyst to study the organizational environment and identify factors not easily observed.</i>	

### THEORY AND RESEARCH

"A Behavioral Analysis for Planning MIS Implementation," Mary Lippitt Nichols, University of Minnesota .....	57
<i>Describes an interview based approach for gathering descriptive data on the effects a new system may have on its users. A short description of an implementation in which the approach was used is provided.</i>
