

# MANAGEMENT INFORMATION SYSTEMS QUARTERLY

## Table of Contents

December 1981

Volume 5, Number 4

EDITORIAL PREVIEW .....	iii
-------------------------	-----

### SMIS COMPETITION PAPERS

"Word Processing in a Major Corporation: Policies, Plans, and Management," Thomas W. West, California State University and Colleges, and Carolyn J. Mullins, Indiana Center for the Study of Labor in Industrial Society .....	1
--	---

*Relates the organization of a group at Indiana University to devise objectives, policies, and implementation strategies for word processing in the 1980's and discusses the issues the group encountered.*

"An Approach to Structured MIS Development," Ashok Shenolikar, Harris Corporation .....	19
---	----

*Describes the implementation of a novel MIS development strategy and explains the circumstances that influenced the decision to prepare a user's manual at the beginning of the system development cycle.*

### INVITED ARTICLE

"Decision Support Systems: An MIS Manager's Perspective," Robert K. Vierck, Dillingham Corporation .....	35
--	----

*Discusses how the DSS effort fits into the overall responsibilities of an information resource manager, and the action plan developed in an organization.*

### THEORY AND RESEARCH

"Manager or Technician? The Nature of the Information Systems Manager's Job," Blake Ives, Dartmouth College and Margrethe H. Olson, New York University .....	49
---	----

*Focuses on the information systems manager's role and the relative contributions of technical and managerial expertise required.*

"Firm Size and the Characteristics of Computer Use," William H. DeLone, University of California at Los Angeles .....	65
---	----

*Studies the proposition that firms of different sizes manage their computer operations differently, and seeks to determine whether small firms face special circumstances in their uses of computers.*

"Evaluating Information System Effectiveness — Part II: Comparing Evaluator Viewpoints," Scott Hamilton, ComServ Corporation and Norman L. Chervany, University of Minnesota . . . . .	79
<i>Describes and compares evaluator viewpoints on system            effectiveness for different functional groups involved in MIS            Implementation.</i>
