Tenure-Track or Tenured Faculty Positions in Big-Data Analytics and Information Systems at UCL School of Management

The UCL School of Management invites applications for tenure-track or tenured positions in Big-Data Analytics and Information Systems with an anticipated start date 1ˢᵗ September 2016.

Assistant/Associate/Full Professor in Big-Data Analytics and Information Systems: We are looking for candidates with strong research potential (or demonstrated excellence for senior candidates) in Big-Data Analytics and Information Systems. We are particularly interested in candidates with a quantitative focus on emerging business problems in information technology, business analytics, digital strategy, social media, among others. Candidates are expected to publish articles in top management journals such as *Information Systems Research*, *Management Science*, *MIS Quarterly*, and/or in other leading science and engineering journals. We encourage both junior and senior applications with a PhD in Information Systems, Computer Science, or a related field.

Successful candidates will join the Analytics & Operations research group in the School of Management and are expected to teach Analytics and/or Information Systems courses in our undergraduate and Masters programs or in joint programs with other departments such as Computer Science.

University College London (UCL) is London's leading multi-disciplinary university and one of the world's foremost research universities, with a consistent ranking in the top 20 of the world's best universities. UCL has 35,000 students and 11,000 staff. Academic staff and former students of UCL have won 32 Nobel Prizes; the most recent addition, in 2014, was John O'Keefe (Physiology/Medicine).

The UCL School of Management consists of three research groups: Strategy & Entrepreneurship, Organisations & Innovation, and Analytics & Operations, each having a PhD program. The school also offers BSc and MSc programs in management, entrepreneurship, information management for business, and management science and business analytics. The teaching load is light and designed to maximize research time. See http://www.mgmt.ucl.ac.uk for more information about the school.

Please submit your application online here: http://apply.interfolio.com/31818

The application deadline is October 26, 2015.

You will need to submit a CV, research statement, and at least one paper. You should also arrange for three references to submit letters on your behalf directly through Interfolio. Senior candidates could submit only a CV and an expression of interest (no need for references at this point).

If you have questions about the application process, please contact Dee Chambers <**dee.chambers@ucl.ac.uk**>.
